837P

837 Professional Health Care Claim

This companion document is for informational purposes only to describe certain aspects and expectations regarding the transaction and is not a complete guide. The details contained in this document are supplemental and should be used in conjunction with the ASC X12 Standards for Electronic Data Interchange Technical Report Type 3 (TR3) as published by the Washington Publishing Company.

Section 1 – 837 Professional Health Care Claim: Basic Instructions

Section 2 – 837 Professional Health Care Claim: Enveloping

Section 3 – 837 Professional Health Care Claim: Charts for Situational Rules

Section 1 — Basic Instructions

1.1 X12 and HIPAA Compliance Checking, and Business Edits

- EDI interchanges submitted to Healthy Blue for processing pass through compliance edits. 5010 acknowledgments and reports for accepted/rejected files will be placed in the submitter's trading partner mailbox for pickup.
- TA1 Interchange Acknowledgment. Healthy Blue returns TA1 X12 and proprietary reports to the submitter of inbound 837 files containing envelope errors in the ISA and GS segments.
- Level 1. Healthy Blue returns a 999 Interchange Acknowledgment to the submitter for every inbound 837 transaction received. Each transaction passes through edits to ensure that it is X12 compliant. If the X12 syntax or any other aspect of the 837 is not X12 compliant, the 999 will also report the Level 1 errors in AK segments and indicate that the entire transaction set has been rejected.
- Level 2. In addition to HIPAA TR3 edits, Healthy Blue applies business edits to ensure that the necessary information is populated and complete for efficient processing. When encountering HIPAA compliance (including balancing), code set or business errors, Healthy Blue returns: 1) 277 Claims Acknowledgment (CA) and 2) 864 Level 2 Status Report to the submitter identifying which claim(s) have failed.

1.2 HIPAA Compliant Codes

Use HIPAA-compliant codes from current versions of the following:

- Physician's Current Procedure Terminology (CPT)
- Health Care Financing Administration Common Procedural Coding System (HCPCS)
- International Classification of Diseases Clinical Mod (ICD-10-CM) Diseases
- Provider Taxonomy Codes
- National Drug Code

1.3 Diagnosis Codes

According to the 837P TR3, a transaction is not X12 compliant if decimal points are used in diagnosis codes. Therefore, should a diagnosis code contain a decimal point, Healthy Blue will return a 999 to the submitter indicating that the transaction has been rejected.

1.4 Procedure Codes and Modifiers

All valid CPT and HCPCS codes and modifiers are accepted for claim adjudication. Refer to your billing guidelines or provider contract for submission of these codes. If submitted codes are invalid, a 277CA and an 864 Level 2 Status Report will be returned to the submitter identifying which claim(s) have failed.

1.5 Uppercase Letters, Special Characters, and Delimiters

As specified in the TR3, the basic character set includes uppercase letters, digits, space, and other special characters.

- All alpha characters must be submitted in UPPERCASE letters only.
- Suggested delimiters for the transaction are assigned as part of the trading partner set up.

Inbound Delimiters		
	Suggested Value	
Data Element Separator	*	Asterisk
Sub-Element Separator	:	Colon
Segment Terminator	~	Tilde
Repetition Separator	^	Caret

- To avoid syntax errors, hyphens, parentheses and spaces are not recommended to be used in values for identifiers.

Examples: Recommended: ZIP Code 123456789 Medical Record # 1234567

- Since originally submitted values may be returned on outbound transactions, Healthy Blue encourages trading partners to not use the following special characters as part of the value: asterisk (*), less than/greater than signs (<, >), colon (:), and slash (/). This minimizes the risk for a special character to be recognized as a delimiter.

Example: Provider assigns a Patient Control Number '12*3456789'. Although an asterisk (*) is a valid special character, it adversely affects processing since it is also a common delimiter. The value '12*3456789' may process incorrectly as two separate values '12' and '3456789'.

1.6 Decimal "R" Data Element Types

"R" data element types contain a decimal point; involving monetary amounts, units, visits, weights, and frequency. Healthy Blue recommends using decimal points for monetary amounts, and whole numbers for other types of "R" data elements. Except for monetary amounts, if "R" data element type includes a decimal and numbers after the decimal, Healthy Blue adjudicates the claim based on the whole number. Numbers after the decimal will not be considered.

1.7 Numeric Values, Monetary Amounts and Units

- Healthy Blue pays all claims in US dollars and therefore, accepts monetary amounts in US dollars only. If codes related to foreign currencies are used, then a 277CA and an 864 Level 2 Status Report will be returned to the submitter identifying which claim(s) have failed.
- Healthy Blue recognizes units in whole numbers only.
- Healthy Blue recognizes units in values of less than 9999 and greater than or equal to zero.
- If a negative service line charge or negative units are used, then a 277CA and an 864 Level 2 Status Report will be returned to the submitter identifying which claim(s) have failed.
 - SV203 Monetary Amount - Line Item Charge Amount
 - SV205 Quantity - Service Unit Count

1.8 Address Information

- P.O. mailboxes / Lock Boxes are not allowed in the Billing Provider loop. If submitted in the Billing Provider loop, a 277CA and an 864 Level 2 Status Report will be returned to the submitter identifying which claim(s) have failed.
- The Pay-to Address loop does support P.O. Box / Lock Box addresses. Therefore, if payment is expected to be remitted to a P.O. Box / Lock Box, submit the P.O. Box / Lock Box address.
- Full 9-digit ZIP codes are required in the Billing Provider and Service Facility Location loops. If 5-digit ZIP codes are used in these loops, a 277CA and an 864 Level 2 Status Report will be returned to the submitter identifying which claim(s) have failed.

1.9 Coordination of Benefits

Specific 837 data elements work together to coordinate benefits between Healthy Blue and Medicare or other carriers. Following the Provider-to-Payer-to-Provider model:

- The provider sends the 837 to the primary payer.
- The primary payer adjudicates the claim and sends an 835 Payment Advice to the provider. The 835 includes the claim adjustment reason code and/or remark code for the claim.
- Upon receipt of the 835, the provider sends a second 837 with COB information populated in Loops 2320, 2330A-G, and/or 2430 to the secondary payer. The secondary payer adjudicates the claim and sends an 835 Payment Advice to the provider.

Healthy Blue recognizes submission of an 837 transaction to a sequential payer populated with data from the previous payer's 835. Based on the information provided and the level of policy, the claim will be adjudicated without the paper copy of the Explanation of Benefits from Medicare or the primary carrier.

When more than one payer is involved on a claim, data elements for all prior payers must be present (i.e., if a tertiary payer is involved, then all the data elements from the primary and secondary payers must also be present).

- If data elements from previous payer(s) are omitted, Healthy Blue will fail the particular claim.

Since 5010 has made changes to COB reporting, Healthy Blue strongly encourages in-depth review of TR3 front matter. Healthy Blue adjudicates and pays professional services at the line level. Therefore, when Healthy Blue has any payment position other than primary, line level payments (SVD02), and line level adjustments (CAS), must be conveyed, when known by the submitter.

1.10 Claim and COB Balancing

- For COB claims, balancing is performed at both claim and service line on the payment charges for each payer. If not balanced, a 277CA and an 864 Level 2 Status Report will be returned to the submitter identifying which claim(s) have failed.
- Loop 2300 CLM02 (Total Claim Charge) must equal the sum of Loop 2400 SV102 (Line Item Charge).
- Loop 2320 AMT02 (COB Payer Paid Amount) must equal the sum of Loop 2430 SVD02 (Line Adjudication Information) less the sum of Loop 2300 CAS (Claim Level Adjustments).
- Loop 2400 SV102 (Line Item Charge Amount) must equal the sum of Loop 2430 SVD02 (Line Adjudication Information) plus the sum of Loop 2430 CAS (Claim Level Adjustments).

1.11 Sending Solicited Attachments to Support a Claim

Providers must contract with an attachment vendor approved by Healthy Blue in order to follow the solicited attachment process. This process begins when Healthy Blue requests attachment(s) from the provider to support a claim. Correspondence will contain a bar-code that will translate into an alphanumeric values that will be captured and forwarded to the appropriate processing system for claim review and adjudication. The provider's attachment vendor will provide the ability to scan the requested attachment information and send the image of the bar-coded letter and records back to Healthy Blue for processing.

1.12 Sending Unsolicited Attachments to Support a Claim

Loop 2300 PWK segment is required when paper or electronic attachments support a claim.

In order to expedite processing of a claim:

- Mail the attachment(s) the day before or the day the claim is submitted
- Do not send a copy of the claim with the attachment
- Do not send unnecessary attachments (i.e., do not send a copy of the member ID card)
- Include the attachment control # in the upper right hand corner of the supporting documentation

Mailing Address: Healthy Blue
P.O. Box 60007
Los Angeles, CA 90060-0007

1.13 Taxonomy Codes (PRV)

The Healthcare Provider Taxonomy code set divides health care providers into hierarchical groupings by type, classification, and specialization, and assigns a code to each grouping. The Taxonomy consists of two parts: individuals (e.g., physicians) and non-individuals (e.g., ambulatory health care facilities). All codes are 10-alphanumeric positions in length. Health care providers select the taxonomy code(s) that most closely represents their education, license, or certification. If a health care provider has more than one taxonomy code associated with it, a health plan may prefer that the health care provider use one over another when submitting claims for certain services.

It is strongly recommended that the taxonomy be populated in PRV segments for all applicable claims that you are filing. Refer to the CMS website for a listing of codes, www.wpc-edi.com/taxonomy.

Section 2 — Enveloping

EDI envelopes control and track communications between you and Healthy Blue. One envelope may contain many transaction sets grouped into the following:

- Interchange Control Header (ISA)
- Functional Group Trailer (GE)
- Functional Group Header (GS)
- Interchange Control Trailer (IEA)

837 Professional Health Care Claim–Envelope Specific to Healthy Blue (TR3, Appendix C)

P.415	PS1	Purchased Service Information - Refer to TR3		
P.416	HCP	Line Pricing/Repricing Information - Refer to TR3		
Loop ID 2410—Drug Identification				
P.423	LIN Drug Identification	LIN03 Product/Service ID	(National Drug Code)	NDC # for prescribed drugs and biologics when required by government regulation.
P.426	CTP	Drug Quantity - Refer to TR3		
P.428	REF	Prescription of Compound Drug Association Number - Refer to TR3		

837 Professional Health Care Claim				
TR3	Segment	Reference Designator(s)	Value	Definitions and Notes Specific to Healthy Blue
Loop ID 2420A—Rendering Provider Name				
P.430	NM1		Rendering Provider Name - Refer to TR3	
P.433	PRV		Rendering Provider Specialty Information - Refer to TR3	
P.434	REF		Rendering Provider Secondary Identification - Refer to TR3	
Loop ID 2420B—Purchased Service Provider Name				
P.436	NM1		Purchased Service Provider Name - Refer to TR3	
P.439	REF		Purchased Service Provider Secondary Identification - Refer to TR3	
Loop ID 2420C—Service Facility Location Name				
P.441	NM1		Service Facility Location Name - Refer to TR3	
P.444	N3		Service Facility Location Address - Refer to TR3	
P.445	N4		Service Facility Location City, State, ZIP Code - Refer to TR3	
P.447	REF		Service Facility Location Secondary Identification - Refer to TR3	
Loop ID 2420D—Supervising Provider Name				
P.449	NM1		Supervising Provider Name - Refer to TR3	
P.452	REF		Supervising Provider Secondary Identification - Refer to TR3	
Loop ID 2420E—Ordering Provider Name				
P.454	NM1		Ordering Provider Name - Refer to TR3	
P.457	N3		Ordering Provider Address - Refer to TR3	
P.458	N4		Ordering Provider City, State, ZIP Code - Refer to TR3	
P.460	REF		Ordering Provider Secondary Identification - Refer to TR3	
P.462	PER		Ordering Provider Contact Information - Refer to TR3	
Loop ID 2420F—Referring Provider Name				
P.465	NM1		Referring Provider Name - Refer to TR3	
P.468	REF		Referring Provider Secondary Identification - Refer to TR3	
Loop ID 2420G—Ambulance Pick-Up Location				
P.470	NM1		Ambulance Pick-up Location - Refer to TR3	
P.472	N3		Ambulance Pick-up Location Address - Refer to TR3	
P.473	N4		Ambulance Pick-up Location City, State, ZIP Code - Refer to TR3	
Loop ID 2420H—Ambulance Drop-Off Location				
P.475	NM1		Ambulance Drop-off Location - Refer to TR3	
P.477	N3		Ambulance Drop-off Location Address - Refer to TR3	
P.478	N4		Ambulance Drop-off Location City, State, ZIP Code - Refer to TR3	
Loop ID 2430—Line Adjudication Information				
P.480	SVD		Line Adjudication Information - Refer to TR3	
P.484	CAS		Line Adjustment - Refer to TR3	
P.490	DTP		Line Check or Remittance Date - Refer to TR3	
P.491	AMT		Remaining Patient Liability - Refer to TR3	
Loop ID 2440—Form Identification Code				
P.492	LQ		Form Identification Code - Refer to TR3	
P.494	FRM		Supporting Documentation - Refer to TR3	
P.496	SE		Transaction Set Trailer - Refer to TR3
